Business Interruption Adjustments

Most business interruption problems are not accounting issues, they are Adjusting issues. At PLC we not only understand the accounting issues involved in a business interruption claim, we understand the coverage and adjusting issues as well. We also understand how the adjustment process can impact the business interruption value of a loss. We believe the effective adjuster not only documents the loss, but also impacts the value of the claim! Our efforts are directed to get your insured Back In Business, develop reasonable projections and accurate loss calculations.

Litigation & Arbitration Support

In addition to Expert Witness and File Review services, we offer the following:

Subrogation & Third-Party Property Damage:

Technical quality review of property damage claims and adjustments submitted in subrogation or third-party damage claims.
